Maryland Gained 12,000 Jobs in July Unemployment Rate Decreased to 3.9%

Lowest Unemployment Rate Since the Start of the Pandemic

The U.S. Department of Labor's Bureau of Labor Statistics (BLS) released state jobs and unemployment data. According to the preliminary survey data, Maryland added 12,000 jobs and the unemployment rate decreased to 3.9% in July. This is the lowest unemployment rate since the beginning of the COVID-19 pandemic.

Compared with July 2021, Maryland jobs are up by 78,600, an over-the-year gain of 3.0%.

The Professional and Business Services sector experienced the most private sector growth with an increase of 4,700 jobs, all within the Administrative and Support Services Professional, Scientific, and Technical Services subsectors.

Other sectors adding jobs included Manufacturing (1,000); Education and Health Services (900); Information (400); and Mining, Logging, and Construction (300). Total jobs in the Financial Activities sector remained the same.

Sectors that experienced a decline include Trade, Transportation, and Utilities (600); Leisure and Hospitality (300); and Other Services (100).

June's preliminary jobs estimate as reported by BLS was revised upwards by 1,400 jobs, from a gain of 1,500 jobs to a gain of 2,900 jobs. Since the beginning of 2022, Maryland has gained 44,400 jobs.

Business News

Maryland Is No. 1 in Best States for Gender Equality

According to U.S. News, Maryland ranks No. 1 in a new U.S. News & World Report analysis comparing outcomes in gender parity. Rounding out the top 5 states are Maine, Rhode Island, Vermont, and Illinois. Idaho falls in last place, followed by Alabama, Kentucky, Louisiana, Utah, and Wyoming.

Norwegian Drone Company to Open North American HQ in Baltimore County

According to the Daily Record, Nordic Unmanned, is currently looking for a location in the Cockeysville or Hunt Valley areas of Baltimore County to house its first North American office. Nordic Unmanned hopes to find readily available mixed-use real estate, which will include office, manufacturing, and warehouse space, for the location.

Glossary of Terms

Nonagricultural payroll employment: Employment data referring to persons on establishment payrolls who receive pay for any part of the pay period that includes the 12th of the month. Persons are counted at their place of work rather than at their place of residence; those appearing on more than one payroll are counted on each payroll. Establishments are classified in an industry on the basis of their principal product or activity in accordance with the most recent North American Industry Classification System Manual.

Civilian labor force: All persons 16 years and over in the civilian noninstitutional population classified as either employed or unemployed.

Employed persons: All persons who, during the reference week (the week including the 12th day of the month), (a) did any work as paid employees, worked in their own business or profession or on their own farm, or worked 15 hours or more as unpaid workers in an enterprise operated by a member of their family, or (b) were not working but who had jobs from which they were temporarily absent because of vacation, illness, bad weather, childcare problems, maternity or paternity leave, labor management dispute job training, or other family or personal reasons, whether or not they were paid for the time off or were seeking other jobs. Each employed person is counted only once, even if he or she holds more than one job.

Unemployed persons: All persons who had no employment during the reference week, were available for work, except for temporary illness, and had made specific efforts to find employment some time during the 4-week period ending with the reference week. Persons who were waiting to be recalled to a job from which they had been laid off need not have been looking for work to be classified as unemployed.

Unemployment rate: The ratio of unemployed to the civilian labor force expressed as a percent.

Seasonal adjustment: A statistical technique that eliminates the influences of weather, holidays, the opening and closing of schools, and other recurring seasonal events from economic time series. This permits easier observation and analysis of cyclical, trend, and other nonseasonal movements in the data.

For additional labor market information definitions, go to www.labor.maryland.gov/lmi/glossary.shtml.

For supplementary data and job search information, please visit the [Maryland Workforce Exchange](#).
